

Our Mission Statement

The Connecticut Seaport Car Club is a car club based in Fairfield County Connecticut. This club has been formed in the interest of making the car hobby fun! It is our first goal. Our members are a friendly bunch of seasoned vintage & special interest car enthusiasts from all over Connecticut & other locations as well.

Most of our members own & restore vintage autos, street rods, trucks, customs, stock original cars & antiques.

The purpose of this club is to go to area car shows & cruise nights together

We also hold meetings once a month on the last Wednesday of the month to discuss upcoming car shows and events as well as plan other fun club activities and welcome in new members.

There is also an annual Christmas & Holiday party as well as other social events held over the course of the off-season & winter months.

As the club grows we are helping area charities with money we raise and help our community.

Another goal of our club is to work with other area car clubs to help promote the hobby and make new friends. We have united many car owners & clubs together with this web site and are happy to post photos of their cars seen at area car shows. This web site is for everyone to enjoy & get the most out of the hobby. We plan on making this web site larger and have many interesting car related articles and photos for all of you to enjoy. There is also a section of upcoming area car show event & cruise listings. please make us your source of information so we can meet at a future car show.
