

Connecticut *Cruise* NEWS

Cruisin' With Bob Wojna

For this column input I want to make known that The Connecticut Seaport Car Club, of which I am a member, is celebrating its ten year anniversary. The club was founded on March 10, 2009.

The Connecticut Seaport Car Club is a car club based in Fairfield County Connecticut. This club has been formed in the interest of making the car hobby fun. It is our first goal. Our members are a friendly bunch of seasoned vintage and special interest car enthusiasts from all over Connecticut and other locations as well. We are the largest car club in Fairfield County with over 100 members.

Most of our members own and restore vintage autos, street rods, trucks, customs, stock original cars, and

antiques. The purpose of this club is to go to area car shows and cruise nights together.

We hold meetings once a month to discuss upcoming car shows and events as well as plan other fun club activities and welcome in new members. Our annual car show is at Fairfield University on the first Saturday of August with a rain date the following Sunday. There is also an annual Christmas and Holiday Party as well as other social events held over the course of the off-season and winter months. As the club grows we are helping area charities with money we raise and help our community.

Another goal of our club is to work with other area car clubs to help pro-

mote the hobby and make new friends. We have united many car owners and clubs together with our web site and are happy to post photos of their cars seen at area car shows. This web site is for everyone to enjoy & get the most out of the hobby. We plan on making this web site larger and have many

interesting car related articles and photos for all of you to enjoy. There is also a section of upcoming area car show event & cruise listings.
